

## **FIRE ESCAPE STEPS**

**CANYON FIRE DEPARTMENT  
P.O. BOX 98  
CANYON, TX 79015  
806-655-5010**

- Don't stand up, stay low to the floor and crawl to the closest exits.
  - If you come to a closed door check it with the back of your hand.
  - If the door is COOL, you can open it slowly. Once open check to see if it is safe for you to keep going that direction. You can also beat on the wall to let others know where you are.
  - If the door is HOT, DO NOT OPEN!!!! Place a towel or sheet under the door to keep the smoke from coming under the door.
  - If there is a window open it, crawl out if it is 5 feet or less to the ground.
  - If not you can break it, just remember to cover your face from flying glass.
  - If you are going to crawl out the broken window place a towel on the window edge to protect you from the broken glass.
  - If you can't get out through the window shout and signal for help with a cloth.
  - Go to your planned meeting place. (Neighbors front yard by the big tree or mailbox.)
  - GET OUT AND STAY OUT!!!! NEVER GO BACK IN THE HOUSE!!!
  - Call 9-1-1 or tell an adult about the fire.
-
